

November 2021 Newsletter

We hope this newsletter finds you enjoying the fall weather and preparing for time spent with family and friends as we enter the holiday season.

2022 promises to provide many new things starting with an Extension Board training so all new and existing members can be “on the same page” in their journey of supporting and advocating for Nebraska Extension. We will also be blessed with a new Extension Dean! This has been an exciting experience as we have met and visited the prospective Candidates, Dr Steve and Dr Varner, who are both passionate about Extension. NACEB will also be working with the Extension Zone Coordinators to bring you some professional development opportunities.

As Directors of NACEB we want to take this time to say “Thank You” to you all for your time, talents, and passion of sharing Extension with Nebraska. Without you, our mission would not be fulfilled.
